Filed: September 9, 2003
For: TOE AND CALLUS CLEANER

DECISION
ON
PETITION
UNDER 708.02,VIII

This is in response to the request for reconsideration of the petition decision, mailed February 10, 2005, denying the request for special status in the above-identified application. This request is considered a renewed petition to make special.

The original petition, filed October 25, 2004, was evaluated under the conditions set forth in Section 708.02 VIII of the MPEP which specifies that the required pre-examination search must be directed to the invention as claimed. In the petition decision mailed February 10, 2005, the pre-examination search provided in the original petition was found to be incomplete for the invention as claimed and the petition was denied. The instant request indicates the additional areas, outlined in the February 10, 2005 decision, have now been searched. As such, the pre-examination requirements have been met and the previous decision is hereby withdrawn.

Accordingly, the petition is **GRANTED**.
